

MY BUDGET

Use this worksheet to map out your budget. You can do your budget weekly, fortnightly or monthly (it can help to match your budget to your pay cycle). Just remember to convert all costs to the same time period.

You can also find an online budget calculator at imbmoneytree.com.au

Have you got a positive or a negative? ←

If it's a positive, this is money you can use to reach some of your savings goals. If it's a negative, you might need to review your spending (or find a way to earn some more money!\$!)
